PURPOSE OF 21 DAYS SHORT COURSE

Why to Join

Welcome to Researchers, Scholars, NGOs and Scientists working in the areas of Agriculture and Allied Sciences to participate in the 21 days certificate course. The certificate course will include keynote lectures on agricultural technology from well acclaimed research and development functionaries from academia, technology experts and industry representatives for knowledge enrichment through revealing and reflections regarding new innovations and experiences in Agriculture and Allied Sciences . This programme will teach you how to use advanced agricultural technologies for increasing the crop production without degrading the environment (for example using drones to collect farm data, making informed decisions for refined fertilizer, sowing, crop and weed management plans, as well as monitoring and maximizing the efficiency of farm water systems.)
